Fellow State Employees and Montanans,

1990 was a good year for Montana. We saw increased employment throughout the state and a general reawakening of the Montana economy. We are more economically diverse now than in the past which is a positive sign and a reason for optimism as we move further into the 90's.

State government had a good year as well. We made some changes and developed some new and better approaches to serving the public. I'm proud to be part of a team of quality Montanans who provide first rate services to our great state. Working together we are making things better for everyone who calls Montana home.

Good luck in 1991, and God bless.

Sincerely,

Stan Stephens

1991 Telephone Directory Changes

The "1991 Montana State Government Telephone Directory" has changed to provide you with a more complete and easier to use resource for accessing state government.

You will note some major changes:

- The departmental listings in the front of the book include department phone numbers for the entire state. There is no longer a separate "out of town section". There is, however, an "Agency by City" cross reference.
- The employee listing in the back of the directory now includes employees located around the state. Each individual is identified by department and city.
- There is a new, separate section for universities and colleges.
- The General Information section has expanded to include more information on how to use the state telephone network.

We hope these changes make the 1991 directory a more useful tool. If you have other comments or suggestions, please call the Department of Administration Telecom/Network Services Bureau at 444-2586.

GENERAL INFORMATION

STATE GOVERNMENT INFORMATION 444-2511

STATE TELEPHONE NETWORK (STN) USAGE

The State's telecommunications facilities are provided for the conduct of state business. In addition to state business, the state's telecommunications facilities may be used by state employees and officials for local and long distance calls to latch-key children, teachers, doctors, day-care centers, baby sitters, family members to inform them of unexpected schedule changes, and for other essential personal business. The use of the state's telecommunications facilities for essential personal business must be kept to a minimum, and not interfere with the conduct of state business. Essential personal long distance calls must be either collect, charged to a personal third party number, or charged to a personal credit card.

The state's telecommunications facilities include any state owned, leased, contracted for, operated or maintained telecommunications equipment, services or facilities including: private branch exchanges; telephone key systems; teleconferencing systems; local and long distance telecommunications circuits; data communications equipment, video capabilities; land mobile radio equipment; telephone credit cards; or facsimile equipment.

All in-state and out-of-state calls made on the State Telecommunications Network (STN) are billed to the originating state telephone number.

TROUBLE REPORTS

Report service or equipment trouble conditions to 444-4455, or 444-2973.

STATION ADD/MOVE/CHANGE REQUESTS

Telephone Service Request (TSR) forms are required for installation, modification, removal or other changes to your service. Forms may be obtained from your telephone coordinator. TSRs should be submitted to the Telecom/Network Services Bureau at least 15 days prior to date of change. This will allow both technical and financial options to be reviewed and ensure accurate processing of the service request. Forms are available from Property and Supply, 930 Lyndale, Helena, MT, 59620.

Centel technicians are the only authorized personnel having permission to unplug, plug in, move and take apart telephone equipment, modular cords and jacks. Conduit or raceway is required for all new telephone jacks.

CONFERENCE CALLS

There are five ways in which conference calls can be made:

1). Single line phones - can be used to set up a three-party conference call: call the 1st party and when they are on the line, flash the hookswitch; after the 3 beeps and dial tone, dial the 2nd party; announce the conference; flash the hookswitch to connect both to you.

2). Electronic phones (multi-line) - can be used to set up a six-party conference; however the conference is limited to three off-capitol complex conferees: call the 1st party and when they are on the line, press the Conf 6 button, after the 3 quick beeps and dial tone, dial the 2nd party; announce the conference; press the Conf 6 key again to connect all three of you; repeat for the additional calls.

3). Purchase a speaker phone attachment for your Electronic (SL-1) Telephone. This speaker allows people in your office to hear the conversation. You can make one call or conference in up to 5 additional calls on the phone. Your Telephone Coordinator will assist with this.

4). For larger rooms and more people participating, borrow the Conference 2000 from the Telecomm/Network Services Bureau (call 2973) to be used in your office or a conference room on the capitol complex, (you must use a single line jack). The instructions for use are included with the equipment. This system works well when a group of people in a room want to talk to one person off campus such as a job interview. A large speaker sits in the center of the table so that all people can participate in the conversation.

5). Confer Tech Teleconferencing Bridge (24 line) which is located in Mitchell building. The bridge can be operated in three ways:

- a) Manual Meet-Me - all participants call in at a pre-designated time and are connected to the conference under the control of the operator;
- b) Automatic Meet-Me - incoming calls are answered and conferenced automatically;
- c) Operator Dial-out - operator dials all conferees calling the moderator last.

Conference calls using the bridge should be scheduled at least 1 day in advance.

USAGE, Toll charges based upon the State's current network rate will be charged for all conference connections. Actual cost will vary based on time and distance, and the number of conference connections.

SET UP CHARGE, Based on the number of conference participants per conference. The following set up charges will apply:

Number of Participants	Setup Charge
1 to 5	$10.00
6 to 10	$20.00
11 to 15	$30.00
15 to 20	$40.00
20 to 24	$50.00

For further information call 444-2511.

4 - Within Capitol Complex plus Local Calls plus Intrastate and Interstate long distance calls plus Direct Distance Dialed International calls

If when making a call you receive 10 beeps, the Class of Service on the line will not allow that type of call. See your Telephone Coordinator.

LONG DISTANCE COSTS

All long distance invoicing is prepared by the State Telecom/Network Services Bureau in Helena and then distributed and billed to various agencies on a monthly basis.

The State Telecom/Network Services Bureau uses the US West Communications and AT&T Tariff Rates and then reduces the billing by approximately 23% for users of the State Telephone system.

TELEPHONE CALLING CARDS (Business Only)

Credit cards are distributed by the Telecomm/Network Services Bureau. Contact the Telecomm/Network Services Bureau at 2586 with your questions. Requests for Credit Cards should be submitted through your Agency Telephone Coordinator to the Telecom/Network Services Bureau. Invoicing is included on the State Telecommunications Long Distance Telephone bill.

To Use: When dialing from a Capitol Complex phone, dial 9 + 0 + area code + 7 digit number; when you hear a tone, enter the full credit card number (Area Code not required for instate calls).

When dialing from a Pay Phone dial 0 + area code + 7 digit number; wait for a tone, enter the full credit card number. Please check credit card for special dialing instructions.

To make more than one call, do not hang up after the first call; press the # button instead and enter the next number you wish to call; there is no need to re-enter your card number.

TELEPHONE DIRECTORY CORRECTIONS

Telephone System Information and Departmental Listings - call or write to the Telecomm/Network Services Bureau - Help Desk Ext. 2973.

Individual Listings and Staffing by Department - Request your Telephone Coordinator to submit the Personnel Directory Form to the Telecomm/Network Services Bureau. The corrections will be entered in the Telephone Operator's computerized directory immediately and be used to update the printed directory.

ACCOUNT CODES

Account codes allow you to identify certain calls made during a month when you have more than one subsidiary ledger number (RC#) for which you make calls. The calls made for each account code will be identified on your monthly bill. To use this service, have your Agency Telephone Coordinator contact the Telecom/Network Services Bureau.
